How to order a HUVCO Tubular Skylight

1. What size room(s) are you trying to light?
 Length _____ x Width _____
2. What diameter tube do you want to use? (limited by distance between the rafter or truss)
 10", 13", 18", 21", 24"
3. How long will the tube be? Measure roof to ceiling and add a foot (tube extensions are 2' long)
 Length: _____ feet
4. What is the pitch of the roof?
 Pitch of roof: _____ pitch or flat (21" and 24" available in with flat roof flashing only)
5. What type of roof material?
 shingle metal tile rubber
6. Is the ceiling flat or pitched (cathedral ceiling)?
 Flat Cathedral No ceiling
7. Will the tube be straight or will you need elbows (elbows are sold in pairs, 30 degree adjustment)
 Straight Elbows - Not available for the 24"
8. Would you like an electric light kit for use at night? Includes screw base, threaded rod and wiring box
 ___ Light kit(s) - Fits all size tubes
9. Would you like an exhaust fan kit for a bathroom? Includes 150 cfm fan, low profile intake louver and duct
 ___ Exhaust fan(s) - for 10" only
10. Would you like a dimmer to use as a blind? If so, manual or electric with remote control?
 ___ Dimmer(s) - Not available for the 24"

Each tubular skylight kit includes:

Top dome with aluminum retainer, Seamless aluminum flashing (flat or pitched), two pieces of 24" long tube, (or 1 tube and 2 elbows), Ceiling ring, Diffuser, Hardware, Caulk and Installation Guide
